

## **Viewpoint Systems a Rochester Top 100 Company in 2008**

ROCHESTER, N.Y., November 5 – The Rochester Business Alliance and KPMG, LLP announced today the 2008 Rochester Top 100 Companies, honoring Viewpoint Systems with this recognition for the 3rd time. This prestigious list is a ranking of the fastest growing, privately held businesses in the region.

Jim Campbell, President of Viewpoint Systems, attributes the continued success of the company to the enthusiasm and support of its employees and subsequently the reputation that they have earned among customers and the manufacturing industry as a whole. “Our business is largely driven on the positive word of mouth among vendors and their customers, as well as repeat businesses from our customers who are familiar with the quality products and services that Viewpoint delivers” says Campbell. “Our achievements and continued business growth is due entirely because of the dedicated and talented people we have working here.”

### **About Viewpoint Systems:**

Founded in 1992, Viewpoint offers expertise in test software and systems, custom electronics instrumentation, real-time control, and data management. Customers include General Electric, Carrier, Moog, Ortho-Clinical Diagnostics and Borg Warner. Viewpoint is a Select National Instruments Alliance Partner, operates a National Instruments Certified Training Center, and is a Gold and Silver Tier member of the Control System Integrators Association (CSIA).
